

## V Series Mounting Bracket and Shelf

MBR-VBLANK / MBR-V1  
/ MBR-V2 / MBR-V2-TXS-ASSY

Our V Series Mounting Bracket and Shelf are used to mount hearing loop drivers to a 19" rack, and are suitable for mounting with existing equipment.

The V Series Shelf fits up to two V Series drivers, leaving only a 3mm gap between them for a neat display. When only one driver is placed in the shelf, one side is left exposed; a blanking plate is available for a neat finish, covering the gap.

The V Series Shelf can also be used with TXS-631SET wireless receivers; it can hold either one receiver centrally or two side-by-side. Fixings are supplied.

### Applications

For use with 19" equipment racks, such as:

- 6U Rack Cabinet

### Physical Data

Single V Series Bracket	1U Depth – 135.8mm (5.34")  Weight – 540g (1.19lbs) Construction – Mild Steel Finish – Black Powder Coated
V Series Shelf	1U Depth – 135.8mm (5.34")  Weight – 760g (1.67lbs) Construction – Mild Steel Finish – Black Powder Coated
V Series Blanking Plate	Width – 196mm (7.71") Height – 40mm (1.57") Depth – 15mm (0.59")  Weight – 81g (0.18lbs) Construction – Mild Steel Finish – Black Powder Coated
