

# ULWIII Series

First automatic production NPP LED display

1. **Premium viewing experience**
2. **Ultra stable operation**
3. **User-friendly design**
4. **Intelligent management**
5. **Less maintenance trouble**

# Premium Viewing Experience

Unilumin

 **Gray scale 16bit**

Excellent display performance with profuse color level and natural transition

 **Accurate color calibration**

Timely color calibration to ensure color uniformity

 **High refresh rate**

More realistic and smoother visual experience

 **Three-dimensional adjustment**

Perfect screen flatness

## Why Automatic Production?

Improve production accuracy and ensure product quality  
Improve production efficiency for faster delivery  
Reduce the costs of customer by reducing labor costs

## Unilumin's Strength in Automatic Production

**400,000 m<sup>2</sup>**

Globe largest LED Manufacturing Base

**5,000+ Employees**

Bachelors over 90%

**Smart Factory**

Certified by CNAS(Code L6507)

## High Integration Design

Increased signal transmission stability of receiving card and the hub card

## No Wiring Inside

- IEC connection for interior power supply
- Supporting power supply backup for high stability

# Ultra Stable Operation

Unilumin

Power supply

Backup

## Dual Guarantee Guard Mission-critical Event

Signal supply backup

Power supply backup

# User-friendly Design

Unilumin

Ultra-thin

- Cabinet slim thickness: 45mm

Super-light

- 5kg/cabinet
- Easily carried by one person

Flexibility

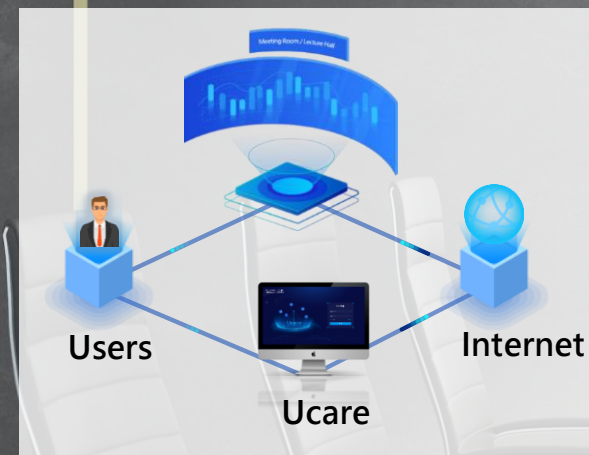

- One cabinet composed of four modules
- Cover snap design on rear
- Front & rear installation accessible
- Customized cabinet

Lighter and thinner design for easier installation

# Intelligent Management System

Unilumin

Ucare intelligent management platform can detect LED screens and peripheral facility states during screen operation, making maintenance more convenient and smarter.

# Less Maintenance Trouble

Unilumin

## Smart Monitoring

Signal indicating light monitoring the operating status

## Efficient Heat Dissipation

- Half Hollowed & Wave Design for bigger heat dissipation area
- Contact thermal conductance accelerates heat dissipation

Front maintenance available

Efficient heat dissipation and intelligent monitoring

Series	ULWIII			
Pixel	0.9	1.2	1.5	1.8
Cabinet Size	600×337.5×45mm			
Maintenance	Front			
Weight	5kg/panel			
Brightness	600nits			
Power consumption <Max>	667W/m <sup>2</sup>	593W/m <sup>2</sup>	667W/m <sup>2</sup>	667W/m <sup>2</sup>
Power consumption <Typical>	222W/m <sup>2</sup>	198W/m <sup>2</sup>	222W/m <sup>2</sup>	222W/m <sup>2</sup>
